ANNOUNCER	Tim Westhead
REPORTER	Joe Szekeres

A strobe light will be used briefly in Act Two.

From the Director:

I gravitated to this play for the simple reason that it looks at the absurd relationship between love and money. Money drives our species, whether we like it or not. The way we spend the finite amount of money we have, is always in question. Even our wisest left and right wing politicians can't agree on this. Every day I ask myself what is a practical, responsible purchase and what is a frivolous one. If you have that same dilemma, you'll enjoy this play, as the craziest characters literally come out of the woodwork to give their impression about what gets sacrificed when we spend or scrimp. Apply this dilemma to the worlds of art, family, or religion and you've got The Phoenix Lottery. Thanks to David Stone for inspiring me to tackle this script. Please enjoy the show...responsibly or frivolously.
